## SKILLS

Design

Project Management

Art Direction

Illustration Briefing

Storyboarding

## SUMMARY

I am a passionate and imaginative professional with a solid background in publishing. With strong project management skills, a keen eye for detail, and a love for visual storytelling.

## WORK EXPERIENCE

### PRODUCER

Wonderbly | 2022 - Current

As a children's book producer at Wonderbly, I am a member of the Story Studio team responsible for crafting personalised products that captivate the hearts and imaginations of both children and adults. My role entails working alongside a diverse group of professionals, including writers, editors, designers, and illustrators, to create distinctive and engaging books. This creative endeavour is supported by project management experience, as I oversee timelines and budgets to ensure a smooth transition from concept to final product, while effectively addressing any production challenges that may arise.

### CHILDREN'S BOOK DESIGNER

Freelance | 2020 - Current

I ran Bebe Bicyclette, an independent studio where I designed and illustrated children's products. I provided freelance services to anyone looking to bring their ideas or publications to life through tailored design solutions and illustrative support.

### SENIOR DESIGNER

Igloobooks | 2015 - 2020

I led design processes from initial concept development to the production of print-ready files for a range of children's books. I collaborated closely with authors and illustrators to create engaging cover designs and captivating page interiors. I ensured technical accuracy and adherence to industry standards at every stage of production.

### GRAPHIC ILLUSTRATOR AND PRODUCT DESIGNER

Spaceright Europe | 2012 - 2015

I designed a comprehensive range of education products for games, interactive signs, murals, and classroom furniture that inspired learning through play.
